CLUBSTER NUTRITION HEALTH LONGEVITY, WHERE THE HEALTH AND FOOD SECTORS CONVERGE

HALL 5 - BOOTH J161

Clubster NHL – Nutrition, Health, and Longevity – is the only competitiveness cluster at the interface of nutrition and health at a national level, bringing together players from the agro-nutrition, biotech-pharma, med-tech-hospitech, e-health, and healthy ageing sectors. Clubster NHL fosters exchanges and partnerships between academic and industrial players and supports application of innovation projects for regional, national and European funding opportunities. Its purpose is to foster the development of innovative projects between private and public stakeholders and promote the nutrition and health sector.

Clubster NHL gathers **320 members with a wide range of profiles**: startups, companies, care institutions, and research and training organisations. Supported by a dynamic team, they find within the framework of Clubster NHL, the resources and the partners they need to **innovate together, finance their projects, and develop their businesses**.

Clubster NHL is based in the **Hauts-de-France region, that ranks third in the poll of excellence in nutrition and health in France**.

Since 2006, Clubster NHL has certified more than 250 R&D projects, of which more than a hundred have obtained funding, for total support of more than 200 million euros.
